We take time to get to know you, the bride, and we take infinite care in capturing those precious intimate moments leading up to your precious wedding. We know how important it is to capture the essence, the mood and feel of this special day for you.

We slow down time, taking care to video those stolen moments in your final preparations, your time spent with family and friends, sitting in front of the mirror making last minute adjustments to your makeup, hair and dress.

We light your formal bridal photography with large umbrella flashes and large soft box studio location lighting, and take care to photograph you in the most flattering soft light, often using soft focus lenses to create that beautiful romantic feel.

We also ensure that there is sufficient time allocated for formal family & friends group photographs, formal bridal photography, as well as full coverage of both the service and the reception.
